## Description

2012 PRINCESS V52 – Sportiness, elegance, and comfort on board  
Powered by two 715 hp Caterpillar engines.

This 2012 Princess V52 perfectly embodies the balance between power, performance, and refinement. With its sporty and timeless lines, this yacht stands out for its elegant and sleek appearance. Built by the renowned British shipyard Princess Yachts, it offers impeccable build quality, meticulous design, and exceptional sailing comfort.

Designed for both day cruises and true sea escapades, this V52 guarantees sailing pleasure and luxury on board.

One of the great assets of this model is its fully enclosed deck saloon, which allows for a larger interior space while retaining the feel of a sporty yacht. The sliding glass doors and electric sunroof offer great versatility: full access to the outdoors or comfortable protection, depending on the weather and your preferences.

The aft cockpit is ideal for entertaining, with a dining area that converts into a large sundeck, a wetbar with sink and cooler, and direct access to the hydraulic aft deck, convenient for swimming or launching a tender or jet ski.

Inside, the Princess expertise is evident, with luxurious finishes, elegant woodwork, and a warm atmosphere. The lower saloon, located opposite the fully equipped galley, can be used as a relaxation area or converted to accommodate occasional guests.

The sleeping area offers comfort worthy of much larger yachts, including a spacious, full-beam master cabin, bathed in light thanks to large side windows, and featuring an en-suite bathroom. The forward VIP cabin also benefits from its own bathroom with a separate shower. Also features a crew

cabin.

Here are her main features:

- Hydraulic stern platform
- Electric sunroof
- 7kW generator
- Air conditioning
- GPS, radar, autopilot, VHF
- LED TV/DVD in the saloon
