ENGINE MANUFACTURER Cummins QSB 6.7	ENGINE HOURS 310	POWER 2 X 550 HP	

Description

FERRETTI 450 FLYBRIDGE from 2017, first owner, meticulously maintained since its launch. Presented in remarkable condition, both aesthetically and mechanically. Strictly for private use, never chartered.

Powered by twin 550 hp Cummins QSB 6.7 engines with only 330 hours of operation, this FERRETTI 450 offers exceptional performance, excellent fuel efficiency, superb seakeeping, and remarkable handling. Its hull design ensures a smooth, stable, and safe ride, even in rough conditions.

This boat boasts highly sought-after, top-of-the-range equipment: Seakeeper gyroscopic stabilizer, joystick controls at both helm stations (interior and flybridge), Glomex WiFi system, generator, reversible tropical air conditioning serviced in 2026, high-quality Flexiteek flybridge, perforated cockpit covers, TV antenna, and a complete SIMRAD electronics package including radar, GPS plotter, autopilot, and VHF radio.

A rare feature is the complete stainless steel surround of the window, which has been modified and reinforced by the shipyard, providing a premium finish and excellent long-term durability.

The upholstery, replaced just two years ago, is in impeccable condition. The batteries are new (as of 2026). All mechanical and technical maintenance was carried out in 2026. The shaft seals were replaced as a preventative measure. The windlass was replaced three years ago, and the boat has a new 12mm, 100-meter chain, ensuring complete peace of mind at anchor.

The interior layout offers a level of comfort worthy of the brand's largest vessels, with three true double cabins and two bathrooms. The full-beam owner's cabin boasts remarkable volume, while the guest cabins offer excellent comfort for extended stays with family or friends. The bright saloon benefits from large windows offering

panoramic sea views.

Outside, the living spaces are particularly generous, with a spacious and convivial cockpit, wide, safe side decks, a large forward sunpad, and a superb flybridge allowing you to fully enjoy sailing and anchoring. Every space has been designed to maximize onboard comfort and passenger flow.

The boat is sold with its 3D Tender 4-seater tender equipped with an electric motor.

Ready to sail. No work required.
